Internship Options for SU 2020, AU 2020, and SP 2021 Graduates ONLY

Note: Each student will be reviewed on a case-by-case situation by their academic advisor and a petition for change in requirements for the major (noted with “*”) will be needed when certain exceptions described below are justified.

**SU 2020 Graduates**

- Students can complete an internship during SU 2020 but the number of work hours required will be reduced from 200 to 100 hours (enrollments in FAES 3191 and ANIMSCI 3191 are required)
- Students can complete an internship that was already in progress as of SP 2020 with 100 hours of work required (enrollments in FAES 3191 and ANIMSCI 3191 are required)
- Students who complete research through the Honors or Research with Distinction Program can count this experience in place of an internship (requires approval by academic advisor)*
- Students who have served as an undergraduate teaching assistant (UTA), the UTA experience can be used in place of an internship (requires approval by course instructor)*
- Students who have participated on national or regional co-curricular teams (e.g. dairy judging, dairy challenge, poultry, livestock, meat, equine, animal welfare, quadrathlon, etc.) can use this experience in place of an internship (requires approval by co-curricular coach)*
- As a last resort as deemed necessary by their academic advisor, the student can be exempted from the internship requirement*

**AU 2020 and SP 2021 Graduates**

- Students can complete an internship during SU 2020, AU 2020, or SP 2021 but the number of work hours required will be reduced from 200 to 100 hours (enrollments in FAES 3191 and ANIMSCI 3191 are required)
- Students can enroll in ANIMSCI 3500 and attend Career Expo*
- Students who complete research through the Honors or Research with Distinction Program can count this experience in place of an internship (requires approval by academic advisor)*
- Students who have served as an undergraduate teaching assistant (UTA), the UTA experience can be used in place of an internship (requires approval by course instructor)*
- Students who have participated on national or regional co-curricular teams (e.g. dairy judging, dairy challenge, poultry, livestock, meat, equine, animal welfare, quadrathlon, etc.) can use this experience in place of an internship (requires approval by co-curricular coach)*
• Students can enroll in an Animal Science or Meat Science course of at least 2 cr hr. Course can be taken for grade or PA/NP. Requirements in the major will be increased by 2 cr hr if a course is selected from their major.*
