

Dairy Genetic Services Summer Intern

ABS Global Inc. is currently seeking a **Dairy Genetic Services Summer Intern** for the summer of 2016. The Dairy Genetic Services team provides variety of tools and services to assist producers in making valuable genetic decisions. Included in these services is the Genetic Management System (GMS) which is the cornerstone of a complete breeding program designed to help dairy producers breed the most profitable dairy herd for their operation. The Genetic Services team works with global evaluators, field staff and dairy producers in over 30 different countries to generate genetically sound reports to help producers bottom line.

The Dairy Genetic Services department is seeking a Summer Intern to assist with processing and analysis of herds and providing customer service to ABS field staff and customers. This Intern will help customers to achieve long-term genetic, reproductive and profitability goals. Additionally, this position will assist in designing and developing training and marketing materials for ABS Customers and field Representatives. This position will have the ability to travel and work with other departments within ABS Global.

Qualified candidates will be pursuing a Bachelor's Degree in Animal Science, Dairy Science or related field. Candidate must have experience working with Microsoft Excel. Genetic, Reproductive and Dairy Management courses and Collegiate Judging Team experience are very beneficial. Commitment to the dairy industry demonstrated through strong involvement in industry-related organizations or clubs is preferred. This internship candidate must be self-motivated, have excellent organizational and communication skills and be able to handle multiple projects. The ability to demonstrate a positive, professional image for ABS is essential.

If you are interested in becoming a part of ABS Dairy Genetic Services team, please forward a resume and cover letter by November 30th 2015.
