

Tyson Foods would like to announce that it is accepting applications for its R&D Summer Internship program. The program has 8 positions available, open to current year Juniors and Seniors as well as Graduate students majoring in Food Science, Meat Science, Animal Science / Poultry Science (with a meat focus), and Grain / Bakery Science as well as 1 internship for Food Processing, Chemical, or Mechanical Engineers (Downers Grove, IL)

Internship Framework

- Internships will be located in either Springdale, AR or Downers Grove, IL
- Travel expenses (both ways) paid, furnished apartment provided and competitive hourly wages (wages are based on the upcoming year in school).
- Interns will be given a summer long project where the intern will perform required research / development work and will present their findings to the R&D department at end of the summer.
- Experience the R&D process with extensive work in bench top and pilot plant testing, product cuttings, sensory and focus group research and touring production facilities.
- Paid attendance to the Reciprocal Meats Conference during the summer.

Tyson R&D Background

- 2 facilities combined for 178,000 sq. ft. with 24 test kitchens and 80,000 sq. ft., USDA Pilot Plants.
- Over 287 Team Members including Product Development Technologists, Research Chefs, Packaging Specialists, Process Engineers, and Sensory Specialists. This includes 22 former interns for Tyson Foods.
- 52 Certified Culinary Scientists in the department (25% of CCS's in the country) and 3 Certified Research Chefs
- Second Largest Food Manufacturer in the Fortune 500 with 128 facilities.
