Internships at Cargill:

Imagine an internship where you get the chance to apply knowledge gained in the classroom to a real-life environment and then multiply that tenfold. From day one, you will be an integral part of the team. Internships are 12 weeks long, and we pride ourselves on having one of the most diverse internship programs in the industry. During the internship, you will tackle real challenges, cultivate your curiosity, have client exposure, enjoy both personal and team accomplishments and have your initiative acknowledged along the way. You will collaborate and build relationships with colleagues and clients who represent diverse work, culture and resolution styles. We look for people who want to grow, support, think and produce.

Dairy Research Internship:

Cargill Animal Nutrition provides customized animal productivity solutions to commercial producers across the Americas, Europe, and Asia. Rather than focusing on standardized nutrition products, we create customized ingredient blends and management programs to fit each situation. Our research-proven management and nutrition technologies suit the specific needs of our diverse array of customers. And our animal nutrition and management experts offer the scope and creativity to serve the unique needs of each customer.

As a research intern, you will be responsible for coordinating research trials and collecting data on the health and growth of young calves. You will learn more about Cargill Animal Nutrition and the wide variety of career opportunities within our business. Challenging projects, along with the chance to interact with various Cargill employees make this a valuable work experience. In addition you will,

- Work closely with the Nurture Research Center staff and assist with the execution of calf research protocols,
- Collect samples and data from young dairy calves, including (but not limited to) blood, urine, feces, weight, height and other data,
- Order research supplies and prepare treatments as outlined by protocol,
- Enter, organize and manage large data sets,

- Learn how to plate radial immunodiffusion assays and evaluate passive transfer or immunity,
- Provide critical input to the research and development team.

Internship Programming:

- Cargill offers both housing assistance and relocation reimbursement to interns who qualify (based on mileage).
- Internships are paid and are at least 12 weeks in duration.
- Day-to-day transportation to and from work is the responsibility of the intern.
- Attend Intern Forum, an event held at Cargill headquarters in Minneapolis, MN, designed to give exposure to leadership and cross-functional interns from across the U.S.
- Interns who demonstrate exceptional performance and a curiosity to learn more may be offered a full-time position for the following year.

Job Locations:

- Locations vary across the U.S
- Plant or office setting, must be open to interning in either type of setting

Required Qualifications:

- Pursuing a Bachelor's degree from an accredited program in Animal Science, Agricultural studies, Veterinary Medicine or related degrees graduating between December 2018 and May 2020
- Experience working within the dairy industry
- Right to work in the U.S. that is not based solely on possession of a student visa or a visa sponsored by a third-party employer
- Demonstrated ability to work effectively with individuals from diverse backgrounds and cultures
- All candidates must be geographically flexible and willing to relocate for an internship opportunity anywhere in the U.S.
- Able to complete a 12-week internship in the summer (May/June - August 2018)
- Must possess a high degree of initiative and resourcefulness in completing work with limited guidance
- Must be able to complete essential functions of this job as outlined in the job description with reasonable accommodations

Preferred Qualifications:

- Degree has an emphasis in Dairy

All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, protected veteran status or disability status.
