Internship Opportunities

As the leading supplier of bovine genetics and services in southern Wisconsin, East Central/Select Sires (EC/SS) is excited to offer three summer internships in 2018. **Cover letters and résumés will be accepted until Oct. 31, 2017.**

Communications Intern

The communications intern is responsible for a variety of projects in public relations, written communications, print advertising, and social media. The appropriate applicant will also receive a broad range of experience with all East Central/Select Sires programs and services.

Duties may include, but are not limited to the following. The intern is responsible for organizing our county-fair donation programs and must represent East Central/Select Sires at numerous functions throughout the summer including dairy shows, county fairs, and producer activities. Other duties include taking photographs; developing and designing newsletters, brochures, and various types of ads; assisting with social-media programs; interviewing customers; and writing feature articles for the company newsletter.

Besides having an understanding of the dairy and/or beef industries, a successful candidate should be proficient in both written and oral communication, have experience with Microsoft Office programs, Google Suite, InDesign, and Photoshop. Video-editing experience is a plus. Additional training will be provided.

This internship is based in the Waupun, Wis., office.

Send your résumé and cover letter to:
East Central/Select Sires, Attn.: Dori Lichy
N11463 State Road 26, PO Box 191, Waupun, WI 53963

Artificial Insemination (A.I.) Specialist Intern (2 positions)

As an A.I. specialist intern, you will have the opportunity to experience a career in the A.I. industry and work with the breeds' most elite females to produce the next generation of impact bulls and females. This internship provides the opportunity to learn and provide A.I. in both large-herd commercial operations and registered elite embryo programs throughout southern Wisconsin.

Training and experience will be provided:

- Large-herd tail chalking, heat detection, and artificial breeding;
- Reproductive physiology and synchronization;
- Record analysis and reproductive-consultation services;
- Training with our automated-detection systems and health-monitoring systems;
- Select Reproductive Solutions Portfolio (SRS) offered by Select Sires;
- Select Mating Services (SMS) program and genetic training offered by Select Sires; and
- Bull-daughter picturing.

Ideal candidates for this internship should have a strong agriculture background:

- Dairy and/or beef focus;
- Outstanding people skills and be service oriented;
- Excellent communication skills;
- Strong work ethic and the ability to work on your own, as well as in a team structure; and
- A.I. experience and knowledge of on-farm software is preferred, but not mandatory.

Location: flexible, but within East Central/Select Sires' southern-Wisconsin market area
