

Heimerl Farms

A TRADITION OF EXCELLENCE IN PORK PRODUCTION

- A COMMITMENT OF ANIMAL CARE
- A TRADITION OF EXCELLENCE
- OUR EMPLOYEES ARE OUR BIGGEST ASSET
- PROVIDING EDUCATION TO THE COMMUNITY ABOUT MODERN PORK PRODUCTION

Heimerl Farms is a highly dedicated *family* run farming operation located 20 minutes northeast of Columbus in Johnstown, Ohio. Johnstown is home to not only our main office, but also the farm which started our swine enterprise many years ago. The main office is responsible for payroll, record keeping, computer operations, phone calls, feed ordering and processing, etc., which are necessary for our business. One major component vital to our operation located in Johnstown is our recently added on to feed processing facility. At this state of the art facility nearly 60% of our pigs are fed through the feed processed here each day. Although the main office is located in Johnstown, Heimerl Farms Ltd. has many swine operations located throughout the state. Even though we are most widely known for our Swine operations in Ohio, raising Holstein Cattle, plus farming several thousand acres makes Heimerl Farms a vital *family oriented* farming operation in the state.
