

Welcome to the Division of Anatomic Pathology in the Department of Pathology at The Ohio State University Wexner Medical Center. In 2017, our employees processed specimens from nearly 75,000 surgical pathology cases. These specimens are the cornerstone of pathology and our laboratory personnel play a key role in obtaining the correct diagnosis for our patients. The histotechnologist is an individual that is able to identify, process, embed, cut, & stain tissues for microscopic evaluation by a pathologist. Histotechnologists are trained so that they can work in medical and veterinary hospitals, clinics, and offices; research labs, and many other specialty pathology labs.

## Certificate Program

### Description:

The Histotechnologist Certificate Program is designed to provide post-baccalaureate students with in-depth knowledge of both the theory and practice of histotechnology. Upon successful completion of this certificate program, students will be able to identify, process, embed, cut & stain human tissue and with additional experience be able to sit for the ASCP histotechnologist (HTL) registry exam.

### Requirements:

- B.A. or B.S. in biology or related field
- GPA>2.5
- Successful completion of background check & drug screen

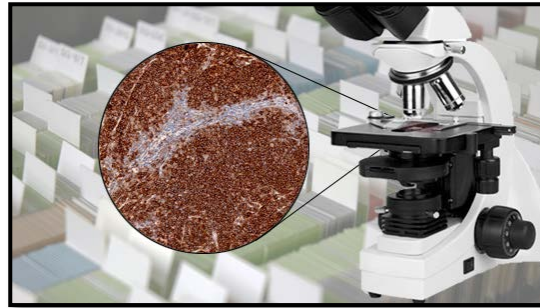

### Program Structure:

Two Semesters with 12 credit hours per semester of combined lecture & hands on laboratory experience.

### How to apply:

Send the following to the Program Administrator by May 15th:

- Minimum of 3 letters of recommendation from current or former professors or employers
- Resume or CV
- Official Undergraduate Transcript

**Wendy L. Frankel, MD**  
Distinguished Professor &  
Chair of Pathology

**Tatiana Oberyszyn, PhD**  
Course Director  
Endowed Professor  
[Tatiana.Oberyszyn@osumc.edu](mailto:Tatiana.Oberyszyn@osumc.edu)

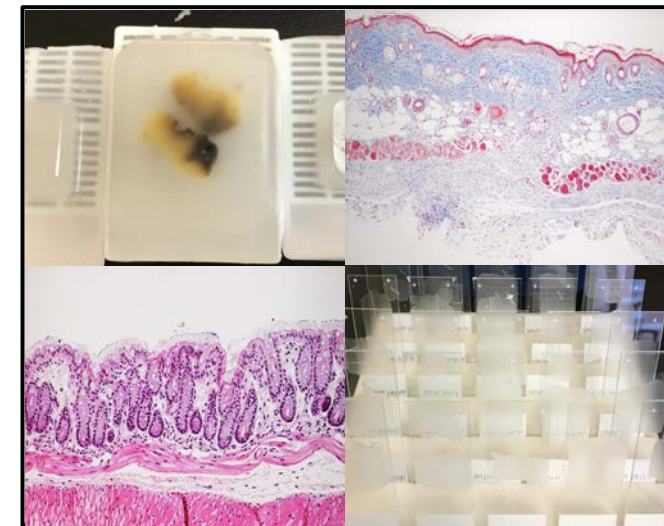

**Bonnie P. Whitaker**  
AP Operations Director  
[Bonnie.Whitaker@osumc.edu](mailto:Bonnie.Whitaker@osumc.edu)

**Kathleen Tober, PhD**  
Program Administrator  
Program Instructor  
[Kathleen.tober@osumc.edu](mailto:Kathleen.tober@osumc.edu)

- ✿ Access to state of the art equipment
- ✿ Immersion in a clinical lab
- ✿ Exposure to routine & unique protocols
- ✿ Interaction with pathology faculty & staff
- ✿ Columbus, OH & The Buckeyes
