

Are you interested in pursuing a graduate degree?

INTRODUCTION

Dairy Innovations, LLC and West Texas A&M University are joining together to find an individual looking to pursue a masters degree in agriculture media and communication. The masters student will attend WTAMU and will be funded by Allied Milk Producers Cooperative for two years. The student will be selected on or before September 1, 2021.

ABOUT WTAMU AG

WTAMU is located in Canyon, Texas, it is home to numerous dedicated and distinguished faculty and staff members, many of those being the Department of Agriculture.

The faculty and staff within the WTAMU Department of Agricultural Sciences are dedicated to preparing students for success in the marketplace after graduation. There is no better place in the United States to study agriculture than the Texas Panhandle where agriculture is a way of life. When pursuing an agriculture degree at WTAMU students are given the opportunity to experience working relationships with agriculture based industries found within the Texas Panhandle.

OPPORTUNITIES

The selected student will work with Dr. Troy Tarpley and Dr. Tanner Robertson to develop programs to educate dairy farmers about the FARM program.

The student will create informational materials, develop crisis management materials, and coordinate training classes and programs for dairy farmers.

The student will also assist WTAMU Athletics in developing and distributing educational information regarding milk as a recovery drink.

The masters student will develop and produce signage for all WTAMU sports camps, that promotes milk as a recovery drink.

The above duties will require the master's student to be on sight during camps to help with the distribution of milk.

This individual will also have the opportunity to work as the Media Specialist for the WTAMU Paul Engler College of Agriculture and Natural Sciences.
